## SOFTWARE ENGINEER | BACKEND ENGINEER

Cairo, Egypt | +20 111 896 2513 | [ahmed97ismail97@gmail.com](mailto:ahmed97ismail97@gmail.com)  
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 3+ years of experience building and maintaining production web applications. Strongest professional expertise in PHP and Laravel, with hands-on ownership of REST APIs, booking and payment workflows, authentication, real-time features, database design, performance optimization, and production troubleshooting. Comfortable contributing across the stack with React, and currently expanding into Java/Spring Boot and C#/.NET. Known for translating business requirements into maintainable solutions and guiding backend delivery.

### TECHNICAL SKILLS

Backend: PHP, Laravel, RESTful APIs, API Versioning, Authentication & Authorization, JWT, Service Layer, Repository Pattern, SOLID, Design Patterns

Frontend: JavaScript, React, HTML, CSS, API Integration

Databases: MySQL, PostgreSQL, SQL Server, Oracle, Redis; data modeling, relationships, indexing, transactions, query optimization

Engineering & Delivery: Git, GitHub, Docker, CI/CD, GitHub Actions, Linux, AWS fundamentals, Agile, code review, production debugging

Additional Backend Ecosystems: Java and Spring Boot; C#, ASP.NET Core, Entity Framework Core and LINQ (ongoing learning and hands-on practice)

### PROFESSIONAL EXPERIENCE

#### Mid-Level Backend Developer | RunSoft

Cairo, Egypt | Feb 2025 - Present

BayToStay: [Google Play](#) | [App Store](#)

- Coordinate backend delivery for a four-developer team, supporting solution design, task breakdown, code review, and technical guidance while remaining hands-on with implementation.
- Own major backend features for BayToStay, a production rental and booking platform supporting thousands of users, property units, and booking records across guest, host, and administration workflows.
- Designed and implemented versioned REST APIs, JWT authentication, roles and permissions, social login, OTP, Firebase notifications, and real-time chat with Pusher.
- Built booking, host-approval, payment, wallet, pricing, availability, search, and administrative flows with transactional data integrity and clear service boundaries.
- Diagnosed and resolved production incidents involving slow queries, N+1 access patterns, database load, deployment conflicts, payment callbacks, and third-party integrations.
- Reduced a critical API response time from approximately 4 seconds to 0.5 seconds (87.5%) through query restructuring, indexing, eager loading, and pagination.
- Contributed to Docker- and CI/CD-based delivery across development and production environments.
- Contributed to Factories Online, a B2B e-commerce platform, developing backend functionality and APIs in collaboration with product and frontend teams.

#### Backend Developer | Flex Agency

Cairo, Egypt | Jul 2023 - Jul 2024

- Developed and maintained PHP/Laravel applications and REST APIs for web and mobile clients.
- Translated product requirements into backend features, database structures, integrations, and reusable application services.
- Collaborated with frontend, mobile, and product stakeholders throughout planning, implementation, testing, and release.
- Reviewed code, resolved defects, and improved maintainability through consistent engineering practices and Git-based workflows.

### EDUCATION

Bachelor's Degree | Ain Shams University, Cairo

Sep 2019 - Oct 2023

### LANGUAGES

Arabic: Native | English: Professional working proficiency
